For Weakness and Loss of Appetite. The Old Standard general strengthening tonic, BROVE'S TASTELESS CHILL TONIC, drives out malaria and builds up the system. A true tonic and sure Appetizer. For adults and children, 50¢

PROSPECT SCHOOL (New Building).

#### Prospect School.

Three years ago there stood on the road leading from Laurens to Waterloo a shabby, weather-beaten old school house. This house consisted of three class rooms, two large rooms in front, a small room and well house in the rear.

Inside the rooms were home-made desks, wooden blackboards, dilapidated old stove. The walls and desks were unpainted. One could tell by names carved on tops of desks who had formerly occupied this seat. No pictures adorned the walls of this old building. This building, after having been used for 20 years, was torn away and a neat building, of one, and additional cloak room, now stands in its place.

The exterior of the building was painted white, the interior walls were green, the wainscoting walnut and the overhead some lighter shade.

Patent single desks and teachers' desks and chairs, with plenty of blackboards, maps, and pictures, shades for the windows and an additional supply of books for the library.

This building was found to be too small to accommodate the pupils, and work too heavy for one teacher, so in the summer of 1913 a special tax was voted, a new room built and another teacher employed. In the year of 1914 a new well was bored, pump put in, and a drinking fountain now takes the place of the unsanitary open water buckets, and individual drinking cups are now used.

Our school is taught this year by Miss Genie Aiken and Miss Carrie Langston.

Louise Dean,  
Ninth Grade.

#### Gray School.

The Gray school was established in 1897. The land belonging to it was given by Mr. Walter Gray for whom it is named. The first building was one small room, unpainted. Now instead of that, stands a beautiful new building built according to a state-approved plan. It has two large classrooms, two cloak rooms, and a teacher's room, and is painted inside and outside.

We have a busy Improvement association which has helped to furnish the building. They bought a good organ last year, and this year they have bought maps, pictures, blackboards, window shades, desks and other furniture.

Our teachers this year are Miss Annie Kate Childress, principal and Miss Ruth Martin, assistant. They have enrolled about sixty-five pupils. Otto Long, Abed Long and Emma Thomas have been present every day. The school term is short because the money was used on the new building.

Jennie Long,  
Fourth Grade.

#### Riddle's Old Field School.

Our school land was given by a Mr. Johnnie Riddle in 1850. It is situated five miles west of Gray Court. The first schoolhouse was a rude log building and they used slabs for benches. Since then several houses were used, but was very little better than the first. The present building, a very comfortable one, was built by the public in 1911.

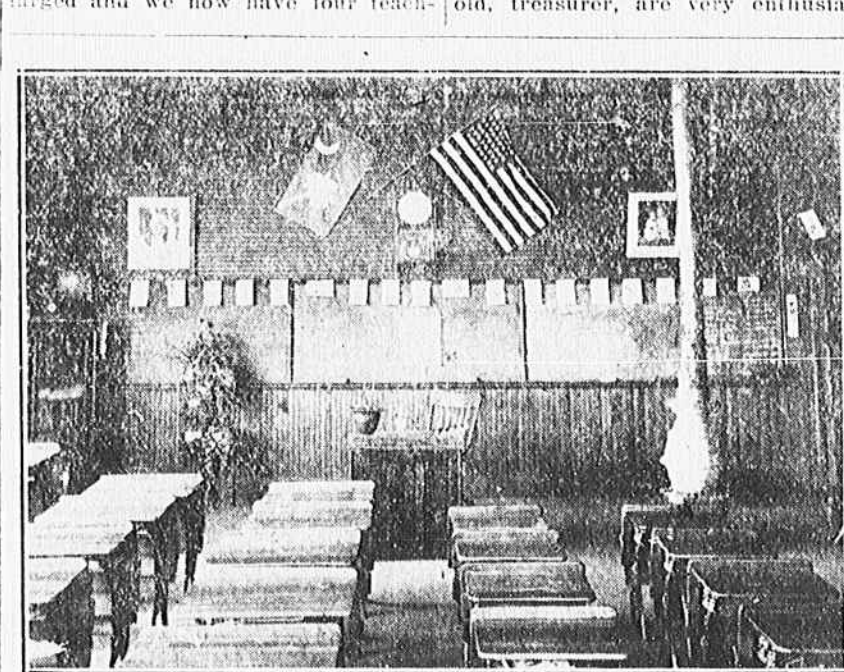

Miss Maude Langston is our present teacher. She has thirty-nine pupils enrolled, and from the first through the seventh grade. The length of school terms before this was only four months, but we will get a longer term this time.

The Rural School Improvement association has for its officers: Mrs. Julius Todd, president; Miss Clara Garrett, vice president; Miss Mittie Canady, secretary and treasurer. During this session, the association has raised \$16.00. Some of the money has been used in buying a heater shades, blackboards and a library. We wish to keep improving our school, as we have this term.

Irene Owens,  
Fifth Grade,  
Ida D. Garrett,  
Fourth Grade.

#### Mountville School.

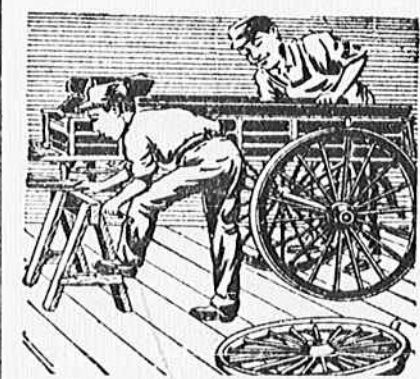

This schoolhouse was built in the spring of 1890. There were only two teachers: Mr. W. A. Teague and Mrs. S. A. Mounce. At that time they had an average attendance of thirty-five. Since then the building has been enlarged and we now have four teachers:

PROSPECT SCHOOL (Present Interior View.)

Prof. E. A. Fuller, Miss Marie V. Stokes, Miss Mary E. Martin and Miss Emma Hipp. The number of pupils has increased to ninety-seven. We have ten grades and the length of the school term is nine months. Last May the School Improvement association was organized with nine members. Since then eight members have been added to the roll. The following were elected as officers: Mrs. Alice Miller, president; Mrs. Rosa Motes, vice president; Mrs. Maude Bryson, treasurer; Miss Marie Stokes, secretary. It has met regularly and has succeeded in bringing all the parents into a closer union. It has given fire entertainments and from these they have realized \$135.85. Twenty-four dollars of this have been spent for a set of encyclopedia books and \$1.50 have been spent for song books. The balance will be used in helping to furnish the new building, which is now nearing completion. One boy from this school has joined the Boys' Corn club this year. About twenty-two pupils will get the library certificates. Fourteen pupils from this school will get the attendance buttons.

Josephine Thornton,  
Marie Teague.

#### Princeton School.

Princeton school has always been considered one among the best of Laurens county schools. Why? Because good teachers, wideawake trustees, and enthusiastic patrons have co-operated together and made it so, from the very first organization of the school years ago.

For the past five years the school has prospered greatly under good discipline. During that time the building has been remodeled, so now we have three class rooms, a big auditorium and good equipment.

For the year 1910, Mr. T. C. Cork and Miss Kiddie Arnold had charge of the school. In 1911-12, Mr. T. E. Welborn and Mrs. J. B. Britt taught, having Miss Emma Lou Humbert for the third teacher. From 1912 to 1914, Mr. J. W. Huff, with Mrs. J. B. Britt and Miss Kiddie Arnold, have been in charge of the school.

Our teachers for this term, which is an eight-months school, have enrolled 124 pupils. We have ten grades. A number of pupils take the School Journal, and six pupils will get perfect attendance buttons.

Our School Improvement association has accomplished very little this term, but the officers, who are Mrs. J. B. Britt, president; Miss Kiddie Arnold, vice president; Mrs. R. W. Arnold, treasurer, are very enthusiastic

in the work and their aim is to accomplish more in the future.

Bolyne Arnold,  
Tenth Grade.

Cures Old Sores, Other Remedies Won't Cure. The worst cases, no matter how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00.

## Cotton Requires Fish-Scrap—

## ROYSTERS

TRADE MARK

F.S.R.  
REGISTERED

## Are the original fish fertilizers

Fertilizer ammoniated with Fish-Scrap is universally admitted to be the plant food best suited to the cotton crop.

This is not a theory, but a fact proven by the experience of many. The popularity of Royster's, the original and genuine fish-scrap fertilizer has caused a host of brands to appear with fish in the name: if you want to be sure of getting fish in the goods as well, be sure to buy the brand that made fish-scrap famous; F. S. R.

If you are not already acquainted with the splendid results from ROYSTER'S fish-scrap fertilizer, we simply ask that you test it alongside any other brand and abide by the proven results.
